ASSESSMENT CRITERIA - Regulation 89 – Front fence height

The Minister for Planning (Minister's Guideline MG/12, June 2005) has set out the objective and decision guidelines that Council must have regard to when considering varying a design and siting standard.

If any matter set out in the guideline is not met, then Council must refuse consent.

To assist Council in determining if the objective and decision guidelines have been met, please describe how your application meets the following appropriate assessment criteria.

Objective: To ensure front fence design respects the existing preferred character of the neighbourhood.

- b. the slope of the allotment and or existing retaining walls or fences reduce the effective height of the wall; or (*comment below*)

c. the fence is required for the minimisation of noise intrusion; and *(comment below)*

d. the fence height will not result in a disruption of the streetscape; and *(comment below)*
