DESCRIPTION OF PROPOSAL AND REASONS FOR APPLICATION

ASSESSMENT CRITERIA Carparking – Regulation 78

The Minister for Planning (Minister's Guideline MG/12, June 2005) has set out the objective and decision guidelines that Council must have regard to when considering varying a design and siting standard.

If any matter set out in the guideline is not met, then Council must refuse consent.

To assist Council in determining if the objective and decision guidelines have been met, please describe how your application meets the following appropriate assessment criteria.

Objective: To ensure that carparking is adequate for the needs of the residents.

Decision guidelines

- a. the anticipated residents are likely to generate a lesser demand for carparking; or (*comment below*)

- b. the provision of carparking on the allotment would reduce the on-street carparking by equal to or more than the number of carparking spaces that would be provided on the allotment; or (*comment below*)

c. the dimensions of the allotment provide insufficient width and/or depth to enable the provision of the required carparking on the allotment; or *(comment below)*

d. the location of existing development on the allotment provides insufficient width and/or depth to enable the provision of the required carparking on the allotment; or *(comment below)*

e. the availability of public transport and on-street parking would lessen the demand for carparking on the allotment; and *(comment below)*

f. the provision of carparking is consistent with any relevant local planning policy or parking precinct plan in the relevant planning scheme. *(comment below)*
